

**COMPLETION OF THE ENGINEER OF 2020 CRITERIA (REV1.0)**

**Use a separate form for each criterion completed.**

**STUDENT INFORMATION**

Student Name: \_\_\_\_\_ Shocker #: \_\_\_\_\_  
 Today's Date: \_\_\_\_\_ Date Completed: \_\_\_\_\_

**APPROVAL PROCESS**

1. Undergraduate Research: The faculty supervising the undergraduate research approves the activity and signs this form.
2. Cooperative Education/Internship: The activity is evaluated by the department and the department coop coordinator signs this form.
3. Global Learning/Study Abroad: The faculty teaching the global learning class or the Office of International Programs approves the activity and signs this form.
4. Service Learning: The faculty supervising the service learning approves the activity and signs this form.
5. Leadership: The student completes a project report and submits to the Director of Engineering Education. (faculty/sponsor signature not required)
6. Multi-Disciplinary Education: The student submits a form to the Director of Engineering Education documenting completion of this criterion. (faculty/sponsor signature not required)

**CRITERION SUBMITTAL (CHECK ONE CRITERION PER FORM, PLEASE)**

## **Definitions:**

**Undergraduate Research:** Students work under the supervision of a faculty member either as an undergraduate research assistant for one semester or perform an independent study. The faculty supervising the undergraduate research approves the activity and signs the form.

**Cooperative Education/Internship:** Students work 40 hours per week for two semesters or 20 hours per week for four semesters. Students may intern or have other work experience to meet this requirement. The activity is evaluated by the department and the department coop coordinator signs the form.

**Global Learning/Study Abroad:** Students participate in a global learning project within a class at WSU or complete credit bearing classes in a foreign country. The faculty teaching the global learning class or the Office of International Programs approves the activity and signs the form.

**Service Learning:** Students participate in a project in a credit-bearing class that serves the community's needs as part of the engineer's responsibility to society. The faculty supervising the service learning approves the activity and signs the form.

**Leadership:** Students participate in formal instruction and lead a project or have previous leadership experience. The student completes a project report and submits to the Director of Engineering Education.

**Multi-Disciplinary Education:** Students obtain a minor or second major outside their engineering discipline. The student submits a form to the Director of Engineering Education documenting completion of this criterion.
