Accessing WSU Secure Wireless Network

Here are instructions on the process of connecting to WSU’s wireless network. You must have a WSU ID to connect wirelessly to the ‘Secure’ network. Once connected, the network is available while on any of the WSU Campuses.

Steps for connecting to WSU Secure are:

1. Find ‘WSU Secure’ in your list of available wireless networks and click ‘connect’
2. A window will pop up asking for your login and password.
   a. Your Login is your WSU ID
   b. Your Password is your WSU ID password

(If you are not a current student or faculty/staff, you will need to connect to WSU Guest)
3. A Security Alert box may come up asking to validate security credentials, click connect.
4. Test your connection by accessing any web site.

Steps for connecting to WSU Secure on a Macintosh are the same as connecting on a Windows machine.

1. You will choose ‘WSU Secure’ in the list of available wireless network listed in the Airport.
2. Enter your WSU ID and password.

If you need assistance in configuring the wireless network on your computer for use on the WSU Campus, please come by the College of Education Technology Center and we will be happy to assist you. We are located in Room 156A, Corbin Hall on WSU Main Campus.

For any questions, please don’t hesitate to contact us.
