STUDENT HEALTH SERVICES

The mission of Student Health Services (SHS) at Wichita State University is to assist students in maintaining a state of optimum physical and mental wellness. Student Health provides medical treatment for ill or injured students and offer guidance and education in health matters to promote good health and prevent disease. Student Health’s caring and professional staff is comprised of registered nurses, registered nurse practitioners, physicians, licensed pharmacist and a registered dietitian.

STUDENT ELIGIBILITY

All enrolled WSU students who have paid student fees are eligible to receive full services offered by SHS. Because Student Health is partially funded by student fees, faculty, staff and visitors may receive only limited services.

Health Insurance is not required to be seen or treated at Student Health. Still, we do encourage all students to carry accident & hospitalization insurance. Group health insurance is available to all WSU students. Information is available at the Office of Student Life, 105 Grace Wilkie Hall or the Rhatigan Student Center Information Desk.

LOCATION
The Office of Student Health Services may be located in 209 Ahlberg Hall.
The primary purpose of the Counseling and Testing Center (CTC) is to support students and other members of the university community in pursuing and achieving their educational goals. Personal concerns can interfere with your ability to perform as well as your overall educational experience at WSU. Personal concerns may be of a temporary situational nature or may be more ongoing or long standing. Counselors and therapists in the Counseling Center are prepared to assist you with both situational and more outgoing concerns.

PROFESSIONAL STAFF
The professional staff includes licensed psychologists, licensed marriage and family therapists, and psychology interns who are completing their doctoral training. A consulting psychiatrist is a part of the staff. The Center provides training experiences for carefully selected students completing a Masters degree in community clinical psychology. The staff member with whom you are meeting will be happy to provide you with specific information regarding professional background and answer questions you may have.

LIMITATIONS
Counseling services through CTC are limited in a number of ways that may be important for you to know. Much like the services of SHS, the staff of CTC is not available outside of regular office hours, nor is on-call or weekend coverage provided.
All residents of Sedgwick County can access emergency and crisis services through the local Community Mental Health Center — COMCARE at (316) 660-7500. Similar services are available in other countries. If you are in need of services beyond the scope of those provided by CTC, we will attempt to assist you in locating appropriate services.

CONFIDENTIALITY
Your appointment with a counselor is treated as a professional confidential relationship. Information regarding your contact with the Counseling Center will not be released without your authorization. The legal exceptions to your confidentiality include possible child or elder abuse, danger to self or danger to others. It is the practice of the counseling staff to seek consultation. Clinical supervision is one frequent form of consultation. The use of video or audio taping for supervision and consultation purposes is a standard part of our procedures. You may discuss any concerns about taping with your counselor. If you were referred, unless instructed otherwise by you, we will respond to requests from referring departments and individuals about whether an appointment is scheduled or kept without discussing the content of counseling. Mandatory counseling referrals carry a requirement that we will report on contacts, progress and clinical impressions.

RECORDS
Many of the personal concerns that clients bring to CTC are normal developmental concerns. Visiting with a counselor about such concerns is provided to be a professional consultation, not a health or mental health treatment. In these instances, no records will be maintained other than the initial identifying information provided by you. This distinction may be important in the future regarding health insurance, security clearances or other questions about your medical history. In other instances, the nature of the concern and/or the nature and duration of services suggests a mental health diagnosis is appropriate. If so, we are required to open and maintain appropriate clinical records. Your counselor or therapist will always inform you if and when a clinical record is being initiated. Consultations with the psychiatrist for medication always involve clinical record. In a most instances, you can have access to review your clinical file upon request.

APPOINTMENTS & COSTS
In your initial appointment you will be asked about your reasons for coming to the Counseling Center, what you hope to accomplish in counseling and what you think is important for your counselor to know in order to assist you. During the initial appointment, you and the counselor will determine whether further meetings are necessary, whether the counselor and you are likely to work well together and, if appropriate, to develop a plan on how to proceed. You are under no obligation to continue to meet if you determine that is not in your best interest.
The funding for counseling services comes from several sources—primarily from state funds, secondarily from student fees and thirdly from client payments. A payment of US$8 per visit is usual for counseling. The payment signifies your participation in the counseling process and is a way of supporting the services of the Center. If the payment presents a difficulty for you, please discuss it with your counselor. The major way you “pay” for the services is through your approach to counseling — being active and intentional about keeping appointments, focusing on achievable goals and progressing toward those goals. When counseling helps you achieve your academic and life goals our major purpose is accomplished.

DEFINITION OF LEGAL CONSULTATION
Wichita State University students have access to a free, thirty-minute visit with an attorney retained with funds made available by the Student Government Association (SGA). During this time, the student may discuss legal issues of personal concern to the student.

LEGAL MATTERS COVERED
Legal matters such as landlord-tenant disputes, traffic citations, commercial credit issues, deed preparations and title examinations, warranty defaults and automobile-related issues are illustrative of services offered. If the attorney believes your legal concern can be resolved quickly through telephone or written correspondence, counsel may do so within the 30 minute time frame. However, when a legal issue is complex and requires more than 30 minutes to resolve, the attorney will inform you. You will then have to decide whether to pursue the matter further. Any help you may need beyond 30 minutes will be at your own expense.

LEGAL MATTERS COVERED
The consultation service cannot accept pending cases involving civil or criminal litigation or matters involving or dealing with the University, the University’s affiliated corporations, auxiliary enterprises or service providers, the Kansas Board of Regents, or the State of Kansas.

LIMITS ON CONSULTATION SESSIONS
You may consult with an attorney more than one time, but only one session is allowed for any one issue, and only one session is allowed per semester.

AVAILABILITY OF COUNSEL
Students seeking legal advice will be assigned to an off-campus attorney.

ROLE OF THE UNIVERSITY

CAMPUS SAFETY

Wichita State University (WSU) is committed to maintaining a safe and secure campus community which encourages the development of lifelong relationships, and a supportive atmosphere in which all can develop and grow. A safe and secure community is the shared responsibility of students, faculty and staff and including University police. No community can be entirely crime-free in today’s society, and unfortunately, criminal activity does occur on campus from time to time. Members of the university community are vulnerable to the same crime problems encountered by residents of any major metropolitan area.

It is the goal and commitment of the WSU Police Department to provide students, faculty, staff and visitors a safe and enjoyable experience during their stay on campus.

Over the last ten years WSU has consistently ranked as one of the safest campuses among the Kansas Regents’ institutions and among 168 similar institutions (major four-year colleges and universities with recognized police departments and more than 10,000 students) nationwide.

Statistics can be used many ways, but the University Police Department (UPD) is pleased that Wichita State compares so favorably with other colleges and universities across the country. Nevertheless, we realize that crime issues are an ongoing, concern for students, their family members, and to faculty and staff members.

THE UNIVERSITY POLICE DEPARTMENT

The Wichita State's Police Department is dedicated to providing a safe, protected and orderly environment to enhance the opportunity for students, faculty, and staff to participate in the educational system. As a service organization, the department offers a full range of police resources, including area patrols, criminal investigations, crime prevention, facility security and event planning, as well as parking management and enforcement. The professional men and women, full-time staff, and student employees are selected to meet the high standards and mission of UPD.

The department includes 23 full-time sworn officers who work eight-hour shifts, providing the university with all-day, year round protection. Driving patrol is complemented with a bicycle patrol which rotates among officers on each shift. Student Cadet Officers enhance officer presence by serving as extra “eyes and ears” for the officers. Cadet officers provide walking patrols on the main campus, on-campus living units, as well as at the satellite centers. Students are also used as dispatchers during the evening, overnight and weekend hours, and desk workers man the security desks at the Residence Halls.

Necessary enforcement includes the use of alternatives to arrest when reasonable and with the cooperation of those administrative services impacting student conduct. Our enforcement efforts are always geared toward providing a safe community for students, faculty and staff.

DOING YOUR PART
Patrolling campus and surrounding areas by the University Police is a major factor in keeping crime to a minimum. The opportunity for crime, however, will continue to exist, and the community will always be victimized by crime. You can assist in reducing crime by supporting your police department in its effort to apprehend criminals and by utilizing preventive measures to reduce the opportunity for criminal acts. You are urged to both report crimes and to practice logical measures to reduce them. We all share in the responsibility for making WSU as safe a place as possible.
