Pricing: See Manufacturer percentage off MSRP document for discounts. These lists are separate attachments to this document.

This contract has been designed to give the State of Kansas a large variety of furniture items to choose from, allowing each agency to purchase products that best meet their agencies needs at a discounted price.

All contacts are based on a discount percentage off MSRP. Please be aware that selecting the Manufacturer with the highest discount may not always yield the best price. Each agency should be prudent and responsible in their purchases, following guidelines set forth by their agency.
