The fall Entrepreneurship Forum will focus on financing the entrepreneurial venture — specifically, the role of finance in the start up and in growing the venture after launch.

A talented group of entrepreneurs and specialists will pass along their “lessons learned.” They will share their unique experiences and answer questions such as what are sources for capital for beginning and growing the firm, what sources are most commonly used, and the advantages/disadvantages of the financial sources.

This valuable learning opportunity is a “must” for students, aspiring entrepreneurs, and veteran business people.

Thursdays, 3:00–4:00 p.m.
Devlin Hall, Room 107, WSU Campus

Free and open to the public.
