The Department of Chemistry and Biochemistry of UC San Diego invites applications for faculty positions in organic chemistry at all levels. A Ph.D. or equivalent degree in one of the chemical sciences is required. Candidates at the assistant professor level are expected to establish a vigorous and original research program and be capable of outstanding teaching at the undergraduate and graduate levels. Candidates at higher levels are expected to have a distinguished internationally recognized track record and a demonstrated ability for teaching at the undergraduate and graduate levels. Salary, commensurate with qualifications and experience, is based on University of California pay scale. Candidates should send a curriculum vitae, a summary of research plans, and a list of publications to: Chair, Organic Search Committee 4-790F, University of California, San Diego, Department of Chemistry and Biochemistry, 9500 Gilman Drive, Mail Code 0332, La Jolla, CA 92093-0332. Applicants at the assistant professor level should arrange for three letters of recommendation to be sent directly to the same address. Review of applications begins November 1, 2006 and will continue until the position is filled.
