Applications are invited for three tenure-track positions at the assistant professor level in biochemistry, inorganic and organic chemistry to begin September 2007. Candidates with interdisciplinary interests are strongly encouraged to apply. WWU consistently ranks among the top public comprehensive universities in the West and its chemistry and biochemistry programs are among the strongest of their kind in the country. WWU is a primarily undergraduate institution committed to excellence in both teaching and research. The department of 17 faculty offers B.S. and M.S. degree programs in chemistry and biochemistry, with the B.S. chemistry degree certified by the ACS. The department has state-of-the-art facilities with 8500 sq. ft. of dedicated research space and a large portfolio of modern instrumentation. Current external grant support averages $1M annually. The department is also active in the development of new educational materials, textbooks, and innovative teaching methods. More than $2M in support from Research Corporation, the M. J. Murdock Charitable Trust, and WWU is being used to provide competitive start-up packages, student and faculty summer research stipends, student travel support, and matching funds for new instrumentation. WWU is located in Bellingham, WA, midway between Seattle and Vancouver B.C. overlooking the San Juan Islands and adjacent to Mt. Baker and the North Cascades. Applicants should submit curriculum vitae, undergraduate and graduate transcripts, a statement of teaching philosophy and research plans, and arrange for three letters of recommendation to be sent to Prof. Mark Wicholas, Department of Chemistry, Western Washington University, Bellingham, WA 98225-9150. Review of applications will begin October 2 and continue until the positions are filled. A Ph.D. degree is required and post-doctoral experience preferred. For disability accommodation call (360) 650-3771 (V) or 650-7696 (TTY). AA/EOE.
