The following list of classes will transfer from Seward County Community College into the Secondary Math program at WSU. The list only includes classes that meet a specific requirement for the program. Additional courses will be required for the Associate of Arts or Associate of Science degree.

It is important to note that students transferring from a two-year college must complete at least 60 hours at a four year college or university and 45 of those hours must be upper-division. Students are encouraged to seek Dual Advising from advisors at WSU and Seward County Community College in order to proceed successfully through the program.
