Internship Opportunity

Vision
Empower America's youth through increased fitness, confidence, and performance.

Mission
As the industry leader in performance enhancement, we will continue to deliver a positive training experience that improves speed of movement and strength in character regardless of ability or economic status.

Overview
Bill Parisi, founder of Parisi Franchise Systems, Inc. has been developing successful techniques to improve speed and agility in young athletes for over 20 years. In 2005, Bill started franchising the Parisi Speed School and his proven methodology. Since that time the network has grown to over 85 locations in 31 states across the US as well as several locations internationally.

Our proven Parisi Youth Training System has made us the leader in safe youth sport performance training.

Our slate of professional athletes who have benefited from the Parisi Youth Training System include:

Chris Long, son of Howie Long. Chris was named best NFL combine performer for a defensive lineman after working with us and now plays for the St. Louis Rams.

Tobin Heath, an outstanding mid-fielder for the US Women’s National Soccer Team and two-time Olympic Gold Medalist.
Goals

1. To find a highly motivated individual that would like an opportunity to work with a locally owned franchise and gain insight on the performance training industry. We will be providing an opportunity to shadow and participate in not only the training/coaching aspect but also the business.

2. We will provide an opportunity for willing participants to experience both the business and training aspects. As many students graduate usually with the experience of one or the other. We want to allow someone to follow in the footsteps of our program director to experience the business and planning. Then also have the opportunity to shadow our performance coaches on the floor.

3. After shadowing the coaching/training, and business aspect, our final goal would be to consider this person for future employment. Also hope to inspire them to enter our field, and maybe even open a parisi speed school of their own.

What to expect...

- Flexible Schedule- we want to fill your hourly requirement for college credit.
- System Training- We use state of the art systems, and plan to train you.
- Shadowing- You will get insight on Private, Small Group, and Team Training.
- Sales & Outreach- We will be doing events, and want you to network and help you build relationships.
- Fun- We want this to be very informative, but we also want to show our passion for coaching and running a business that is about empowering others and helping them succeed.

Final Information
● This is an unpaid internship.
● We are willing to work with any schedule, part time or full time. Monday - Thursday and some weekends. Hours to be determined if accepted.
● Willingness to learn, our programs, and systems.
● We are looking for a team player, someone who puts others before themselves.
● Calm and Collective, working with the youth can test you, we have to maintain a good poise with parents and our kids.
● Be prepared to become comfortable with being uncomfortable, we want to teach you to network and outreach with other businesses, and the general public. Which at first can be scary, but we want to instill confidence in you and help you gain a skillset that will stay with you no matter what career path you decide.

Thank You for your Consideration

At Parisi, we value our team members, and want to thank you for looking into this amazing opportunity. If it seems like it may be a good fit, please contact,

Sheldon Howell
Program Director/Performance Coach
