

MUSIC ASSOCIATES
 Wichita State University
 The Support Group for Music

The purpose of the Music Associates is to support the School of Music by inviting the participation of alumni and friends in a wide variety of musical events, and to provide support for special projects not financed through state or municipal funds. All of these efforts enhance the tradition of musical excellence at Wichita State University.

Providing student scholarships is a major focus that allows the university to continue recruiting the highest level musicians to study at WSU. We have provided funding for students and faculty to attend or perform at national and international conferences and workshops. Our support has helped make master classes and leading concert artists and teachers available on campus.

With your membership, you can be a part of that legacy. Music Associates members receive:

- μ Yearly Fine Arts Performance Calender
- μ Invitation to concert performance and reception highlighting students who receive Scholarships
- μ The satisfaction of supporting quality education and cultural activities, sustaining the national prominence of the School of Music and watching it grow

**MUSIC AT
 WICHITA STATE UNIVERSITY**

Duerksen Fine Arts Center has been the home of the School of Music since 1955. In 1986, the Wiedemann Recital Hall was built to house the only Marcussen Pipe Organ constructed in the Northern hemisphere. These facilities provide a challenging and stimulating experience for the study of music.

The nationally acclaimed undergraduate programs include the Bachelor of Music Education degree in Music Education, and the Bachelor of Music degree in Music Performance, Conducting, Pedagogy, Jazz Studies or Music Theory/Composition. These programs and their curricula are designed to prepare students to compete and succeed in a dynamic musical world.

The graduate degree programs in the School of Music include the Master of Music Education degree and the Master of Music degree in Performance, Pedagogy, Conducting, History/Literature, or Composition. Each of these programs can be tailored to the student's interests.

Because of the University's urban setting, the School of Music provides a unique variety of performance and teaching opportunities not available in communities. The graduate and undergraduate faculty are outstanding scholars and performers in their respective areas of expertise. The Faculty Artist and Visiting Artist programs provide a unique opportunity for the country.
