

Wichita State University
Wichita, Kansas

Graduate Certificate (Post Master's) Pediatric Clinical Nurse Specialist

Registered Nurses with master's degrees (MN or MSN) with a clinical nurse specialist emphasis or major from a nationally accredited master's program may be admitted to the graduate certificate option in Pediatric Clinical Nurse Specialist. The following courses will be required:

Course (12 hours total)	Cr Hrs
N 808: Advanced Role Practicum	3
N 829: Health Care During Growth and Development	3
N 832: Pediatric/Women's Health Nursing: Practicum I	3
N 836: Pediatric/Women's Health Nursing: Practicum II	3

In addition, applicants will need to provide evidence of knowledge of the important issues (i.e., legal, ethical, politically) related to advanced nursing practice. A course or documentation of integrated content from prior degree will be accepted. If such documentation cannot be provided, the candidate will be required to take N715: Advanced Nursing Practice: Roles and Issues.

Prerequisites include the following courses. The Wichita State University course number is shown in parentheses.

Advanced Health Assessment/Lab (N701/702)
Advanced Pathophysiology (793)
Applied Drug Therapy (N795)
Health Promotion and Disease Prevention (N805)

Applicants who have completed graduate level courses similar to those listed above may petition for recognition of those courses. Applicants, however, should realize that courses being recognized must have a pediatric focus.

Records of individuals with varied backgrounds and educational experiences or degrees will be reviewed on an individual basis by the graduate faculty. Efforts will be made to recognize previous experience and academic credit within guidelines and requirements for the Kansas State Board of Nursing.

Students are encouraged to take the appropriate national certification examinations upon completion of these courses.

Admission Requirements:

Students seeking a graduate certificate must be admitted to the Graduate School in a degree program or in non-degree, Category A status.

Degree Admission – The student must have earned a bachelor’s degree from a regionally accredited institution or a recognized institution in another country whose requirements for the bachelor’s degree are substantially equivalent to an American four-year bachelor’s degree. The student must also have a grade point average of at least 2.750 based upon the last 60 hours of course work (or nearest semester or term break to this), including any post-bachelor’s graduate work, and no more than 9 hours of background deficiencies in the desired field. Some programs may require a higher minimum grade point average.

Non-Degree, Category A – Students who already possess a graduate degree and who do not wish to pursue a second degree, should apply for non-degree, category A admission. The student must have earned a bachelor’s degree from a regionally accredited institution or a recognized institution in another country whose requirements for the bachelor’s degree are substantially equivalent to an American four-year bachelor’s degree. The student must also have a grade point average of at least 2.750 based upon the last 60 hours of course work (or nearest semester or term break to this), including any post-bachelor’s graduate work. Some programs may require a higher minimum grade point average.
