OUR MISSION
The Kansas Government Finance Officers Association (KSGFOA) promotes excellence in financial management through the professional development of public servants using education, networking and technology.

KSGFOA partners with Wichita State University’s Public Policy and Management Center at the Hugo Wall School of Public Affairs to provide membership development and operational support for the association.

The membership of the Kansas Government Finance Officers Association adopted the national GFOA code of ethics in February 2004. The Code of Ethics are legal, moral and professional standards of conduct government finance officials should adhere to in the fulfillment of their professional responsibilities. Standards of professional conduct as set forth in this code are promulgated in order to enhance the performance of all persons engaged in public finance.
