**Important News From HealthQuest**

**Heart Healthy New Year’s Resolutions**

The new year is a perfect time to reflect on the past 12 months and assess what habits you want to take with you, and what you want to leave behind. Resolutions can feel - and be - hard to keep, but they don't have to be. Ready to get started? Here are four easy, heart-healthy resolutions for every lifestyle.

- **Drink more water** - drinking the right amount water is a key ingredient in staying healthy.
- **Go green** - keep your cabinets stocked with heart-healthy fruits and vegetables.
- **Cut out processed foods** - they are full of added salt which increases your blood pressure risk.
- **Eat more fiber** - it is crucial to heart health and reducing the risk of heart disease.
