July 9, 2015

Dear Interested Party:

The Wage and Hour Division of the U.S. Department of Labor is responsible for conducting wage surveys to establish the wage rates applicable to construction projects that fall within the jurisdiction of the Davis-Bacon and related Acts. The Davis-Bacon and related Acts require payment of locally prevailing wage rates and fringe benefits to employees of contractors and subcontractors performing work on federally financed or assisted construction projects.

A survey that covers Residential construction was recently initiated for the entire State of Kansas. The purpose of this survey is to solicit information on wages and fringe benefits paid on projects that were active and ongoing between 01/01/2014 and 05/31/2015.

Please be advised that four prevailing wage survey briefings will be held in two cities (Wichita, KS & Kansas City, KS) to discuss the Davis-Bacon wage survey process.
