Key to Telephone Numbers, Campus Box Numbers, and Building Abbreviations

**Telephone Numbers**
The last number in each column is the telephone number. Off-campus callers simply dial WSU or 978- plus the number. If a listed seven-digit number has a prefix other than “978-,” it is an off-campus number; both on- and off-campus callers must dial the entire number.

**Campus Box Numbers**
The one-, two-, or three-digit number between the building-name abbreviation and the phone number is the campus box number. Box numbers can change from year to year, so check directory listings for current box numbers.
