Mayor Brewer visits WTQP

Pleasant Valley Elementary Classroom

Angie Taylor, student teacher in kindergarten with Michele Doll at Pleasant Valley Elementary invited Mayor Brewer to visit the class as they study COMMUNITIES. Students were learning more about the community they live in. Mayor Brewer spoke to the children about his job and the people in the community that help, like firefighters and police officers. Students asked Mr. Brewer questions and talked about their experiences with the people who work for our city.

Welcome Judy Forsse—New Elementary Liaison for WTQP

Ms. Forsse has experience as a classroom teacher in USD 259 with emphasis in working with ESL students. She comes to the WTQP grant from the ESOL program at WSU.

ShockerShine at College Hill Elementary a Success for All

WSU College of Education faculty and staff reached out to College Hill Elementary in the wake of the recent fire to provide teaching materials and an opportunity to meet WU, the Shocker Mascot. College Hill, a WTQP Partner, moved to a temporary location as a result of a fire in August. Many of the teachers lost all teaching supplies so the WSU faculty provide replacement materials and a morale booster in the form of a pep assembly.

WTQP has received funding for another year!

WTQP has received full funding for the fifth year of the USDE Teacher Quality grant. The opportunity that you provide WSU students is of the quality that the US Dept. Education wants to support. Many thanks to all who make a difference in the education of USD 259 and WSU students.
