MEMORANDUM

To: Olathe North and Olathe East Science Olympiad Teams  
From: Greg Novacek  
Date: April 6, 2008  
Subject: Awards Ceremony Announcement Error

If you have looked at the results sheet for Division C of the 2008 Kansas Science Olympiad State Tournament you will have noticed that a error was made in awarding 2nd place in the large school division. Second place should have been awarded to Olathe North High School; Olathe East actually finished 5th in the large school division. This error does not affect medals that were awarded for any event or any point totals. In the rush to get the results to awards ceremony it was simply a matter of the wrong school having been written next to the correct 2nd place point totals on the overall results sheet.

We will order an additional second place trophy and team medals for Olathe North.

I apologize for the error; it is something that should not have happened. I hope this glitch doesn’t diminish any positive experiences you had during the day.
