Wichita State University: The Innovation University
Wichita State University is becoming the Innovation University, transforming the world through innovation, applied learning, entrepreneurship and economic impact. The Wichita State Innovation Campus development was created as a mechanism to achieve the goals of the university’s Strategic Plan.

- **Innovation** – Bringing university researchers, students and industry together to share the ideas that will drive change.
- **Applied Learning** – Breaking down walls and going beyond the books to provide real-world experience for real-world results.
- **Entrepreneurship** – Fostering an environment where risk-taking is encouraged and big ideas can become big business.
- **Economic Impact** – Creating new avenues for financial growth while infusing existing industries with the resources needed for future success.
